PROFILE SUMMARY

Motivated and detail-oriented aspiring Data Analyst with a strong foundation in data analysis, statistics, SQL, Python, Excel, and Power BI. Skilled in data cleaning, visualization, and creating interactive dashboards through academic projects and hands-on practice. Passionate about transforming raw data into meaningful insights to support business decisions. Quick learner with excellent analytical, problem-solving, and communication skills, eager to contribute to a data-driven organization while continuously expanding technical expertise.

EXPERIENCE

❖ Cognizant Technology Solutions

- **Junior Software Engineer** *Oct-24 to Present | Gurugram, HR*
 - Performed DLQ activities and monitored Data Factory, Azure Blueprint & Dynatrace (P1/Normal) alerts to maintain system reliability.
- **Senior Systems Engineer** *Jul-23 to Oct-24 | Remote*
 - Presented team performance, operational data, and updates in client meetings, receiving appreciation for communication and time management skills.
- **System Engineer** *Mar-23 to Jul-23 | Remote*
 - Conducted website monitoring and automated quote generation using Ireland VDI.
 - Executed control activities such as IFC checks and large-scale user/manager data recertification.
- **Programmer Trainee** *Jul-22 to Mar-23 | Remote*
 - Performed health checks across multiple websites and applications ensuring uptime and availability. And Monitored and validated job execution in SAP, Mainframe, and i90 applications.

SKILLS

- ❖ Monitoring Azure Data Factory, Data Lake, Blueprint, Dynatrace (Normal/P1) Alerts
- ❖ R, SQL (SQL Server, MySQL), Power BI (DAX, KPIs, Dashboards), Python (Pandas, NumPy, Matplotlib)
- ❖ SAP, Mainframe, i90 Applications
- ❖ ServiceNow (Incident Handling, Access Provisioning), GitHub
- ❖ Website Monitoring, IFC Controls, Data Recertification, DLQ Azure Activity Logs

EDUCATION

- ❖ **M.Sc (Statistics) | Aligarh Muslim University, Aligarh** *9.00 CGPA | 2020-2022*
- ❖ **B.Sc (Statistics) | Aligarh Muslim University, Aligarh** *9.00 CGPA | 2017-2020*

PROJECTS

- ❖ **Retail Analytics Dashboard** [view](#)
 - Built an end-to-end retail analytics solution using Python ETL, MySQL, SQL, Power BI, and Excel.
 - Developed interactive dashboards to analyze sales, customer, product, and payment performance.
- ❖ **SQL Projects** [view](#)
 - Performed advanced SQL analysis on real-world datasets including Domino's Pizza Sales and Netflix Movies & TV Shows, using joins, CTEs, window functions, time-based and revenue analysis.
- ❖ **Power BI Projects** [view](#)
 - Built interactive dashboards such as COVID-19 Global Impact, Global Retail Sales Insights, and Mobile Sales Performance, using DAX, KPIs, drill-throughs, and slicers.
- ❖ **Python Data Analytics** [view](#)
 - Developed Python projects for Internet Speed Analysis and Data Quality Validation using Pandas, NumPy, Matplotlib, and CSV-based datasets.

CERTIFICATIONS

- ❖ SQL Bootcamp *Udemy*
- ❖ Microsoft PowerBI *Udemy*
